

# Lab Experiment

## Task (1):

## Task (2):

After removing link:

The image shows a Cisco Packet Tracer network diagram and a PC command prompt window. The network diagram illustrates a topology with several switches (Switch0, Switch1, Switch2, Switch3) and PCs (PC0, PC1, PC2, PC3, PC4, PC5). A red lightning bolt indicates a removed link between Switch0 and Switch1. The PC command prompt window shows the output of the `tracert` command, displaying the path and hop times for a trace to 25.0.0.0.

Command Prompt

```
